Message printing 2

Write a Java program to print the given message. You are given a string `s` which contains name and also an integer `age`, your task is to print the following message.

Note

```
if the input is Adarsh 20 then print
My name is Adarsh. I am 20 years old
```

Input Format

line contains your name `s`

second line contains your `age`

Output Format

Print the message

Example 1

Input

```
Adarsh
20
```

Output

```
My name is Adarsh. I am 20 years old
```

Example 2

Input

```
Prachi  
22
```

Output

```
My name is Prachi. I am 20 years old
```

Constraints

$1 \leq |s| \leq 10^5$

$1 \leq \text{age} \leq 100$

My code

// in java

```
import java.util.*;
```

```
public class Main {  
    public static void main(String[] args) throws Throwable {  
        Scanner s=new Scanner(System.in);  
        String st=s.next();  
        int n=s.nextInt();  
        System.out.print("My name is "+st+" I am "+n+" years old");  
    }  
}
```
