Print Quotation Marks in a String

Given a string `s`, print it after adding quotation marks (") towards both of its ends.

You have to complete `addQuotationMark` function which consists of single string input `str` and need to return the required string answer as output

Input Format

Input consists of a single line of string.

Output Format

Return the edited string.

Example 1

Input

```
My name is Khan
```

Output:

```
"My name is Khan"
```

Example 2

Input

```
abcd efg
```

Output:

```
"abcd efg"
```

Constraints

$0 \leq |S| \leq 1000$

My code

```
// n java
import java.util.*;
import java.lang.*;
import java.io.*;

public class Main
{
    public static void main (String[] args) throws
java.lang.Exception
    {
        //your code here
        Scanner s=new Scanner(System.in);
        String str=s.nextLine();
        System.out.print("\""+str+"\"");
    }
}
```
