Variable Practice Question 4

Declare two variables as `a` and `b`. Initialize the values those variables as 1042 and 7 respectively.

Declare another two variables `quo` and `rem` that will store the quotient and remainder of these numbers taking `a` as dividend and `b` as divisor.

Print `quo` and `rem` in a line separated by a space.

Input Format

No input. User has to declare the variables themselves.

Output Format

Print the quotient and remainder of these numbers by taking `a` as dividend and `b` as divisor.

Output:

```
148 6
```
