My code

```
// in java

import java.util.*;
import java.io.*;

public class Main {
    public static void main(String args[]) {
        //your code here
      Scanner s=new Scanner(System.in);

      String st=s.nextLine();
      String newst =" ";
      char ch;
      for (int i=0; i<st.length(); i++)
      {
        System.out.print(st.charAt(st.length()-i-1));
      }
    }
}
```
